

Kimadd 6203

Slip Agent

Product Description

Kimadd 6203 is a polyethylene based masterbatch containing fast migration slip agent. Plastic surface can stick together by blocking so Kimadd 6203 whith the slip additive, migrate to the surface film quickly and reducing or eliminating blocking of the surface tow plastics part. The addition level of the masterbatch depends to the final application. Typical addition levels vary from 0.5% to 2%.

General

Carrier	• PE
Compatibility	• LDPE, LLDPE, HDPE, PP
Forms	• Pellets
Packaging	• 25 Kg PE Bag

Physical

Nominal Value Unit

MFR(190°C – 2.16Kg)	• 2-10 g/10min
Moisture Content	• <2500 ppm

Storage

Kimadd 6203 is supplied in pellet form packed in 25 kg composite bags. Kimadd 6203 should be stored in a dry place and be protected from direct sunlight. Under these conditions the product can be hold at least 6 months.

Note

- Test results have been achieved in lab condition. Miss handling may give different result and sometimes outside of the standard
- The specifications given are the guidelines only.
- Above compound is suitable to run on different machines; however some adjustments may be required on individual machine.
- The customers are advised to check the quality, prior to commercial use. There is no guarantee and/or warrantee what so ever, after processing
